Studebaker

4 and 6-cylinder cars are on the road

Below are some of the many modern features that these world famous cars have for 1914:

Full floating rear axles.
Full Timkin bearings in transmission, rear axle and front wheel hubs.
Electric lights and starting device.
Clean running boards and sloping hood.
Ventilated raise-vision windshield.
Jiffy Curtains.
Detachable-Demountable rims.
Irreversible steering wheel.
Left hand drive with center control.
Gasoline tank under Cowd-shaft.

The gearing in these cars especially fit them for our mountain roads, where power and strength are essential.

Built by the WORLD'S LARGEST Auto Factory and backed by the LARGEST GARAGE in Prescott.
